

**Special Equipment - Accessories for WABECO drilling stand B1200 - B1230****Clamping device**

Item no. 22312

- suitable for all drive units with Euronorm Ø 43 mm

Application

- for horizontal mounting of drive units e.g. drilling machines

**Work table**

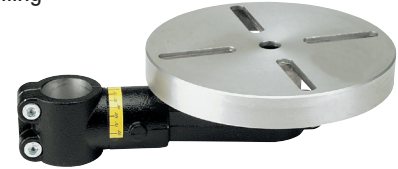

Item no. 22310

- Work table Ø 180 mm
  - can be rotated and swiveled through 360° in all directions
  - suitable for all drilling stands with columns-Ø 35 mm
- Not suitable for drilling stand B1200**

Application

- for rotating and swiveling workpieces
- e.g. for oblique drilling

**Machine vice with quick adjustment**

Item no. 40521

- with horizontal and vertical v-block for round material
- open base plate for clamping or through-drilling of the workpiece
- Trapezoidal thread spindle
- Jaw width 60 mm
- Clamping width 70 mm
- Jaw height 22 mm
- Weight 0.4 kg

Application

- for clamping of work pieces

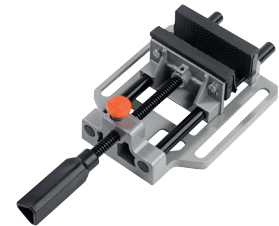

**Machine vice with quick adjustment**

Item no. 40523

- with double pillar guide
- with rubber protective jaws
- with horizontal and vertical v-block for round material
- open base plate for clamping or through-drilling of the workpieces
- Trapezoidal thread spindle
- Jaw width 100 mm
- Clamping width 100 mm
- Jaw height 35 mm
- Weight 1.6 kg

Application

- for clamping of work pieces

**Machine vice made of gray cast iron**

Item no. 40526

- with horizontal and vertical v-block for round material
- open base plate for clamping or through-drilling of the workpiece
- Trapezoidal thread spindle
- Jaw width 85 mm
- Clamping width 70 mm
- Jaw height 22 mm
- Weight 2.4 kg

Application

- for clamping of work pieces

**Machine vice made of gray cast iron**

Item no. 40527

- with horizontal and vertical v-block for round material
- open base plate for clamping or through-drilling of the workpiece
- Trapezoidal thread spindle
- Jaw width 100 mm
- Clamping width 100 mm
- Jaw height 29 mm
- Weight 3.3 kg

Application

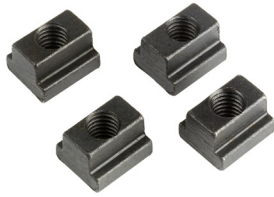

- for clamping of work piece

**Special Equipment - Accessories for WABECO drilling stand B1200 - B1230****T-slot nuts**

Item no. 24429

- PU: 4 pieces
- for 10 mm T-slot and M8 thread

**Tapping attachment**

Item no. 35805

- tool holder  
for taps of M1 - M8  
square clamping range 2,0 - 5,0 mm
- adjustable tap wrench size 1½
- adapter for Euronorm Ø 43 mm
- suitable for all drilling stands with Euronorm Ø 43 mm
- thread depth can be adjusted using a positioning ring

**Application**

- for positioning the tap at an angle
